

BARASTOC

CRUMBLE

WHAT WILL IT PROVIDE MY CHICKEN?

Each pellet is a concentrate of high quality ingredients specifically formulated to provide the right balance of protein, energy and phosphorus to help pullets transition from immature birds into strong healthy adult laying birds.

Contains an anticoccidial as an aid in the prevention of coccidiosis, an intestinal infection caused by the Eimeria parasite which young birds are vulnerable to.

Presented as a small crumble which is suitable for small beaks.
